# Digital Citizenship

Sunnybrae Normal School

Protect Your Information
I don't give out my private information like my name or where I live. I keep all my passwords a secret. I always logout when I am finished using a device.

Know Your Stuff
I know what sites are safe for me to use. I know how to find information and pictures. I know what the copyright laws mean for me.

Report It Quick
If I find something I think I shouldn't be looking at I tell a teacher straight away.

Be Positive
I show respect to myself and others online by only saying kind and positive things.

Put a Stop to Cyberbullying
I tell a teacher if someone is being unkind or hurtful to me or someone else online. Cyberbullying is **not** acceptable.

Handling Equipment
I use all equipment carefully. I hold an iPad with two hands. I am careful with buttons, screens and keyboards. I remember to turn devices off when I am finished.
